Charter Amendment Proposal Form

1. Please provide a brief description of: The Proposed Charter amendment, the purpose of the proposed Charter amendment, the issue or problem to be addressed by the proposal, and how the proposal would address the issue or problem.:

I would like to recommend that the City Council have more jurisdiction/oversight over the Board of Water Supply, which is a public utility. The purpose of this amendment is to save the taxpayers some money. Taxpayer money is being wasted! If the City Council has more oversight on the Board of Water Supply, instead of only "Reacting" to water main breaks, the city could be more "Proactive" in repairing old water lines, before a break, so that the streets that have just been paved don't have to be torn up to repair the break. There should be some organization, so that after the water pipes are repaired BEFORE the city can repave that road. For example, in Kaimuki, right after the roads were paved, there were three water main breaks and the road had to be redone. It would relieve a lot of problems to be proactive. In Kailua, there have been 2 water main breaks on Kainui Drive, but instead of replacing the whole line, they only make a quick fix. One only knows when the water main will break again.

2. If applicable, list the Charter provision(s) affected by the proposal::

Apparently, the City Council does not have much jurisdiction on the Board of Water Supply and what direction they need to take to be efficient.

3. If the proposal is based on a provision or provisions in the charter or laws of another jurisdiction (e.g., another county, city, or municipality), name the jurisdiction and, if possible, attach a copy of each provision or law.:
